

COMMONWEALTH PRIVATE AMBULANCE PROVIDERS

C.P.A.P.

www.virginiaems.org

We are not subsidized

Mission Statement: CPAP is committed to improving medical transportation services throughout the Commonwealth of Virginia in a visible/non-partisan way. We advocate for positive, proactive change on behalf of our patients, customer facilities and the medical transportation industry. Membership is free and open to all.

Corporate Governance: CPAP has a visible and structure corporate governance program and our by-laws are available to anyone that asks. Each of the Chair, Vice-Chair and Secretary position serves a 1-year term before new members take over. Membership meetings are held at a minimum of twice a year and in addition when required. Members can attend in person or over the phone. Information is disseminated to all members on a regular basis. Minutes of each meeting are kept and shared with members and others upon request. All providers in the state are members of CPAP except for 1 or 2 providers currently who we have not heard from. Membership is free and encouraged.
